

RATCHET CABLE CUTTER : PRTC500.

Description.

Ratchet controlled cable cutter light weight and compact, suitable for cutting of telecommunications cables up to 2700 pairs.
(Not suitable for use with steel wire armoured cables).

Features.

High precision cast jaw designed to cut smoothly and cleanly without distortion of cable.

Ratchet controlled to ensure full cut cycle with consistent applied pressure, reduces operator fatigue and enables single handed operation.

Emergency release lever to stop cut cycle at any stage.

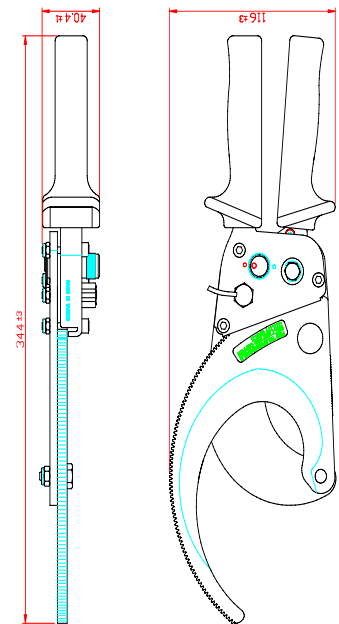

Light weight and compact for easy use.

Ergonomically designed moulded PP handles for optimum grip.

Safety lock mechanism.

Application.

For use with telecommunications cables up to 2700 pairs.
(Not suitable for steel wire armoured cables).

Material specification.

Blade material: SAE4340.

Frame material: S45C.

Handle grip material PP.
